Bringing Nature Home—How You Can Sustain Wildlife with Native Plants

Dr. Douglas Tallamy is Professor and Chair of the Department of Entomology and Wildlife Ecology at the University of Delaware in Newark, Delaware, where he has authored 69 research articles and taught for 28 years. Dr. Tallamy's book "Bringing Nature Home" has sparked a national conversation about the link between healthy local ecosystems and human well-being. Learn about the key role native plants play in the restoration of our denuded landscapes and how we must change our approach to gardening and landscaping if we hope to share the spaces in which we live and work with other living things.

Time: 1pm – 3pm

Cost: \$20. Friends members/\$25 non-members
