Pruning your roses properly can make all the difference in the number of blooms and the overall vitality of the plant. Who wants a bunch of thorns? Learn a little rose genealogy and then learn how to prune your roses properly with plantsman Paul Ippolito who cares for the Frelinghuysen's rose gardens.

Call 973-326-7601 to register. Space is limited.

Bring thick gloves if you want to prune.

We will meet at the Haggerty Education Center but the class will be held in the Rose Garden!
