Join John Morse, Manager of Horticulture, for a spring stroll at Willowood Arboretum.

This is the height of spring bloom and the flowering trees and shrubs, spring bulbs and early perennials are just the tonic to brush winter's mental cobwebs away.

Your inner artist will be inspired, your inner nature lover - captivated, your inner gardener - motivated. If you have never visited, what a perfect time for initiation to one of New Jersey's most beautiful public gardens. If you are an ardent supporter, come celebrate spring at the garden "Where nature is the guiding hand."
