## **GINGERBREAD WONDERLAND 2017** **Celebrating 26 Years of Wonder! December 1–10**

In 1991, staff and Board Members of The Friends of The Frelinghuysen Arboretum thought that having a display of gingerbread houses would bring guests to our lovely gardens at a usually quiet time of year. They were right. That first year, there were under a dozen exhibits and a few hundred guests. Recent shows have featured over 200 displays and attracted over 13,000 guests!

Be a part of this Morris County holiday tradition this year by entering and then visiting the show. Complete rules are available on our website on October 1, along with a link to lots of images from shows over the years.

The magic of Gingerbread is hard to describe. “Gingerbreads” are not only houses, but also landmarks, trains, planes, and animals and include every theme from favorite show tunes to commercials, from family vacations to superheroes. It’s a collaborative thing of joy that celebrates our diversity and our commonality. Start your holiday by sharing your talents, points of view and memories at the 2017 Gingerbread Wonderland!

### **Gingerbread Craft Show**

Holiday shopping is easy at our Gingerbread Wonderland Craft Show, now in its eighth year. Our “handmade only” show features local crafters offering beautiful, affordable and completely handmade gifts perfect for yourself or that special person on your list.

*Dates:* Saturday, December 2, Sunday, December 3,  
Saturday, December 9, Sunday, December 10

*Time:* 10:00 am – 4:30 pm

*Cost:* \$2 per person gains entry to both the Craft Show and Gingerbread Wonderland

### **Preview Party at Gingerbread Wonderland**

Members are invited to attend the 26<sup>th</sup> Annual Gingerbread Wonderland, free of charge on Thursday, November 30 from 3:30 pm – 7:30 pm. After viewing the exhibit, come to the lower level for live music, complementary food tastings provided by local restaurants, an ugly sweater contest, exhibits and more! Please register for this event online, or by mail.

## notes from the board

The Annual Meeting of The Friends of The Frelinghuysen Arboretum took place in June, combining a business meeting and awards ceremony with a wonderful program. Two new officers were elected to the Friends' Board: Heather Emelander as Vice President, and Alexander Liu as our Treasurer. Heather brings valuable experience from Acorn Hall, where she was a Board member for 12 years and President for 6 of those years. Alex is new to the Board, but brings extensive business experience with financial and IT systems. Alex replaces Kathy Kane, who completed her 2-year term after making major contributions to the Friends policies and operations. The Board accepted with regret the resignation of member Beth Riley, who developed the Retail Partners Program during her 6 years of service. Many thanks to these and all our Board members for their dedication and hard work.

Heather Emelander, in her role as Chair of the Blackburn Scholarship Committee, presented a scholarship award of \$2,000 to Hunter Hildebrant. This year, the Watnong Chapter of the North American Rock Garden Society contributed \$500 toward the scholarship award. The remainder was funded by the proceeds of the Blackburn Scholarship Lecture, held in February and featuring distinguished speaker William Thomas, Director of Chanticleer Gardens. The award honors the memory of Dr. Benjamin Blackburn, and his instrumental role at the Arboretum in its early years.

Tom Castronovo

Awards Chair Sally Hensen then presented the Friends' Annual Award to Tom Castronovo, founder of the publication *Gardener News* and its editor for the past 26 years. The award recognizes an individual who has made significant contributions to the horticultural world. Among Tom's many accomplishments are his role in promoting legislation leading to improved practices in the landscape industry. He also helped promote a bill that declares the first Friday in June as New Jersey Garden Day, to encourage the public to visit New Jersey gardens and arboreta. Tom is also one of the founding members of the Garden State Gardens Association. Congratulations Tom!

Finally, guest speaker Regina Carlson gave an inspiring presentation on "Gardening with Passion, Conscience, and Good Sense," full of wisdom and tips from her many years of experience in her Summit garden. We all took home several ideas on how to make gardening easier and more enjoyable.

On a personal note, one of the most heart-warming of my duties as President is to acknowledge the contributions that individuals make to the Friends of the Frelinghuysen Arboretum. Many of these are accompanied by touching letters that describe how much they or the person they are honoring enjoy gardening and visiting the Arboretum. Others mention the beauty of the gardens, and the peace and release from stress that a visit brings them. The Friends sincerely appreciate these contributions that support our mission – a heartfelt thank you to our generous donors.

Judy Snow, President

Judy Snow with Hunter Hildebrant

### *2017 Benjamin C. Blackburn Scholarship Recipient Announced*

The Friends are pleased to announce the selection of Hunter Hildebrant of Hackettstown as the recipient of the 2017 Benjamin C. Blackburn Scholarship. The scholarship is awarded annually to one or more students matriculating in the County College of Morris' Landscape and Horticultural Technology Program. Hunter is a fifth-generation farmer who works as a full-time partner on her family's fifty-six-acre property, RH Farm (formerly Iona Hill).

The Hildebrants provide their community with seasonal produce, operate a retail market on site, and provide fresh produce to ten select urban farm markets each week. It was a dream of Hunter's father to bring 'country magic' to the city. When he died in 2012 he left a legacy that Hunter plans to honor and develop with modern techniques and business practices.

The Friends wish her success and great growing weather. Go Hunter!

### *The Liberated Landscape: A Lecture by Larry Weaner*

Larry Weaner  
photo by Kim Sokoloff

All too often in our gardens and landscapes we think of static compositions of carefully placed and managed plants. But our approach can be more dynamic – and arguably more rewarding – than that by taking advantage of plants' natural abilities to reproduce and proliferate. Learn how designer Larry Weaner combines design with the reproductive abilities of plants as well as ecological processes to

create compelling, ever-evolving landscapes that bring new meaning to partnering with nature. Using examples from his own property as well as diverse client projects, Mr. Weaner shows how partnering with nature can result in compelling, low-maintenance landscapes that free plants to perform according to their natural abilities. Larry recently authored *Garden Revolution: How Our Landscapes Can Be a Source of Environmental Change* with Tom Christopher (Timber Press, 2016). Their book received a 2017 Book Award from the American Horticultural Society.
