

The Language of Flowers in Nature and Art

June 18th, 1:00 pm

Join the **Home Garden Club of Morristown** on June 18th, 1:00 pm, at the Brookside Community Club, 1 East Main Street, Brookside, NJ for a free lecture entitled, “The Language of Flowers in Nature and Art.”

Have you ever studied a painting and know that there was more to it than what meets the eye? For centuries, flowers in art have had more significance than just a colorful bouquet or pretty arrangement.

Rosemary Shire is an art enthusiast, gardener, and member of the Garden Club of Westfield. She is a Master Gardner who has travelled extensively and studied Art History.

In this lecture, she will discuss the significance and/or symbolism of flowers in art via a slide presentation, pair photos of flowers from her garden with paintings depicting flowers and speak about flowers associated with mythological or religious figures, and illustrate them through works of art.

Contact Suzanne at slevenbach.sl@gmail.com and she'll save you a seat.
